Subject: Microsoft Settlement

Hello,

I am a concerned citizen, and would like to voice my opinion against the Proposed Final Judgment in the U.S. vs. Microsoft case currently being considered by the Federal District Court. I believe that the proposed settlement does not adequately address Microsoft's anti-competitive behavior identified in the Appeals Court, and allows for huge loopholes that Microsoft will be able to continue their anti-competitive behavior.

Here is my personal information:

Thank you for your consideration.

Best regards,
Andrew Hsi
